SUMMARY

Strategy/operations-focused analyst with 5 years at CarMax translating Customer Experience Center (CEC) audit and performance data into insights that improved compliance and quality outcomes. Strengths include SQL/Python foundation, Excel/Google Sheets modeling, BI dashboards, and influencing leaders through clear reporting and recommendations.

SKILLS

Analytics & Data: Excel (pivots, formulas, modeling), Google Sheets, BI Dashboards (Tableau/Power BI/Qlik), SQL, Python, Data Visualization, Trend Reporting

Development: JavaScript, TypeScript, React, Next.js, HTML, CSS, Tailwind, REST APIs, FastAPI, Git/GitHub

EXPERIENCE

Quality Assurance Consultant | CarMax, Richmond, VA | Oct 2020 - Nov 2025

- Delivered 56 quality/compliance evaluations per week and analyzed CEC performance trends across 10–12 teams (~80–130 associates) to surface operational risks and efficiency opportunities.
- Designed and implemented the official CEC Audit Program with Compliance Services, standardizing audit methodology and improving consistency and operational transparency at scale (CEC 9,000+ employees).
- Reduced compliance opportunity rates by 23% and increased inbound QA evaluation scores by 9% by building Excel/Google Sheets models and BI dashboard reporting, then translating findings into targeted recommendations for leadership.

EDUCATION

Bachelor of Science in Computer Science (B.S.), Artificial Intelligence Concentration | Full Sail University | Feb 2026

AWARDS/RECOGNITIONS/VOLUNTEER WORK

National Society of Collegiate Scholars (NSCS) — Member
