SUMMARY

Strategy and analytics professional with 0–2 years of hands-on experience turning operational and compliance data into insights, trend reporting, and leadership-ready recommendations at CarMax. Strengths include SQL/Python foundations from Computer Science coursework, BI dashboards (Tableau/Power BI/Qlik), and Excel-based analysis to drive measurable performance improvement.

SKILLS

Analytics & BI: Excel (pivots, formulas, charts), Google Sheets, Tableau, Power BI, Qlik, Data Visualization, Trend Reporting

Data & Technical: SQL, Python, Database Concepts, REST APIs (FastAPI), Git/GitHub

Web (Academic/Projects): JavaScript/TypeScript, React/Next.js, HTML/CSS/Tailwind

EXPERIENCE

QUALITY ASSURANCE CONSULTANT OCT 2020 - NOV 2025

CarMax, Richmond, Virginia

- Reduced compliance opportunity rates by 23% by analyzing CEC compliance/audit results, building trend reports and visualizations (Excel/Google Sheets; Tableau/Power BI/Qlik), and delivering targeted recommendations to leaders.
- Increased inbound QA evaluation scores by 9% by translating performance data into actionable coaching and process changes, improving customer experience outcomes and team execution.
- Designed and implemented the official CEC Audit Program with Compliance Services, standardizing audit methodology and enabling consistent measurement of compliance adherence across CEC teams.

EDUCATION

Bachelor of Science in Computer Science (B.S.), Artificial Intelligence Concentration Feb 2026

Full Sail University, Winter Park, FL

AWARDS/RECOGNITIONS/VOLUNTEER WORK

National Society of Collegiate Scholars (NSCS) - Member
